

MATCHLESS

The Little Monster

Don't let the diminutive size fool you. The Little Monster packs all of the features and incomparable tone one would expect to find in a larger Matchless amplifier into one compact and portable unit.

Powered by one 5AR4 rectifier tube, one EL84 and driven by two 12AX7s. The combination creates an unbelievably robust sound.

Like all of the other Matchless amplifiers, the Little Monster is meticulously hand crafted to military like specifications from start to finish. From the rugged steel chassis to the military spec. parts to the heavy Baltic birch cabinet, only the best materials are used.

The Little Monster is ideal for professional studio work, playing in venues both large and small, and for home practice.

A versatile rock amp, this Little Monster packs a mighty punch. From clean and punchy rhythm to sizzling leads, this little amp delivers substantial sound in one portable package.
